Seemi Shaheen

Full Stack Web Developer

Specializing in Laravel, Vue.js & Modern JavaScript

Islamabad, Pakistan | +92 318 5109471 | seemishaheen77@gmail.com | linkedin.com/in/seemishaheen71 | github.com/seemishaheen

PROFESSIONAL SUMMARY

Full Stack Web Developer with 2+ years of experience building scalable, secure web applications using Laravel, Vue.js 3, Inertia.js, Firebase, and Tailwind CSS. Skilled across the full development lifecycle – from RESTful API architecture and MVC backend design to responsive, real-time frontend interfaces. Delivered a 15% improvement in application performance and a 30% reduction in security vulnerabilities through optimized code and industry-standard security practices. Experienced in integrating Firebase Realtime Database for live data sync and notifications. Strong agile collaborator with a record of on-time delivery and mentoring junior developers.

CORE SKILLS

Backend: Laravel 8–11, PHP 8.x, RESTful API Design, MVC Architecture, Eloquent ORM, Firebase (Realtime Database & Storage), FastAPI Integration

Frontend: Vue.js 3, Inertia.js, JavaScript (ES6+), Tailwind CSS, Blade, Bootstrap

Security & Access Control: Role-Based Access Control (RBAC), Authentication, CSRF Protection

Cloud & Tools: Microsoft Azure, Hostinger, Git/GitHub

Practices: Agile/Scrum, Code Review, Full Stack Development, Cross-Functional Collaboration

PROFESSIONAL EXPERIENCE

Associate-1 Laravel Developer
Dec 2024 – Present

Devomech Solutions, Islamabad

- Built a full-stack HR/Employee Management system using Laravel, Vue.js 3, and Inertia.js, with Firebase Realtime Database powering live notifications and authentication across enterprise modules
- Integrated Firebase Storage for real-time file handling, reducing manual document processing overhead
- Integrated FastAPI microservices with the Laravel backend via RESTful APIs, improving cross-service performance
- Implemented CSRF protection and Role-Based Access Control (RBAC) across enterprise modules, strengthening application security
- Deployed and monitored applications on Azure and Hostinger with optimized server configurations for reliability

Junior Software Engineer
Dec 2023 – Oct 2024

CDigital, Islamabad

- Built and maintained multiple Laravel applications supporting 1,000+ active users
- Improved application performance by 15% through optimized routing and middleware design
- Reduced security vulnerabilities by 30% by implementing industry-standard security practices
- Delivered mobile-first, responsive frontend interfaces using Blade, Bootstrap, and modern JavaScript

Software Developer Intern
Sep 2022 – Dec 2022

HCC Technology Foundation Pakistan

- Led end-to-end development of a Student Feedback Management System from requirements through deployment
- Designed an optimized MySQL database schema supporting real-time analytics and reporting

PROJECTS

Devomech Connect — HR Management Suite

Laravel • Vue.js 3 • Inertia.js • Firebase

- Full-stack HR platform with separate Employee/Team Lead and HR portals – role-based access control, real-time data sync, leave/WFH management, and provident fund tracking
- Live: Employee/Team Lead Portal | HR Portal

KEY ACHIEVEMENTS

- Delivered a 15% improvement in application performance and a 30% reduction in security vulnerabilities
- Maintained a 95%+ code review approval rate with consistent on-time project delivery
- Awarded a Full Merit Scholarship at Namal University (2019–2023)

EDUCATION

Bachelor of Computer Science
2019 – 2023

Namal University, Mianwali

Merit Scholarship Recipient | **Languages:** English (Fluent), Urdu (Native), Punjabi (Conversational)
